

Recreatex Webshop Accessibility Statement

Recreatex Webshop Accessibility Statement

VINTIA IS COMMITTED TO DIGITAL ACCESSIBILITY

Vintia is committed to our mission of digital equality and is dedicated to providing excellent user experience for everyone. Our platform is structured in a way that allows those of all abilities to easily and quickly find the information they need.

ONGOING EFFORTS TO ENSURE ACCESSIBLE CONTENT

Vintia uses the [Web Content Accessibility Guidelines \(WCAG\) version 2.1](#), [Section 508](#), and [EN 301 549](#) as guiding principles. As we develop new pages and functionality, the principles of accessible design and development are an integral part of conception and realization.

We continually test content and features for WCAG 2.1 Level AA, EN 301 549, and Section 508 compliance and remediate any issues to ensure we meet or exceed the standards. Testing of our digital content is performed by our internal accessibility experts using Deque-developed automated testing software (based on the axe® rules library), screen readers, a color contrast analyzer, keyboard-only navigation techniques, and a variety of bookmarklets.

SUMMARY OF ACCESSIBILITY FEATURES

- Most images and other non-text elements have alternative text associated with them.
- Navigational aids are provided on all pages. Skip navigation links have not yet been fully incorporated to facilitate keyboard navigation and to bypass groups of links on a page and jump directly to main content.
- The entire webshop can be navigated using keyboard navigation.
- Structural markup to indicate headings and lists have been provided to aid in page comprehension.
- Forms and most form fields are associated with labels and instructions on filling in forms are available to screen reader users.
- All data cells are associated with their headers.

PRODUCT VPATS

Access Vintia Software conformance reports from the link below. Our document follows the [Voluntary Product Accessibility Template \(VPAT\)](#).

The RecreateX VPAT will be linked here as soon as it is available.

HOW CAN WE HELP?

We welcome any comments, questions, or feedback on our platforms. If you notice aspects of our platform that aren't working for you or your assistive technology, please let us know.
